

BASECOAT PREPARATION ATF

The extremely easy system requires to be applied over its companion basecoat **FONDO OPACO ATF**, this is the only way to achieve the same decoration obtained by the ancient masters of art. Our studies have demonstrated that the use of other basecoat products, even if very well formulated, do not allow the same application result as our integrated system (ANTICHE TERRE FIORENTINE BASECOAT + ANTICHE TERRE FIORENTINE FINIS COAT). It is therefore **strongly** suggested to **always** use our basecoat in order to avoid any technical problems and ensure a proper final decoration.

CORRECT DECORATION

APPLICATION ON ANTICHE TERRE FIORENTINE BASECOAT:
The **HALID IONS** of the ANTICHE TERRE FIORENTINE perfectly mix with the **ALKALINE IONS** of the ANTICHE TERRE FIORENTINE Basecoat

INCORRECT DECORATION

APPLICATION ON OTHER BASECOATS:
The **HALID IONS** of the ANTICHE TERRE FIORENTINE, do not mix with other BASECOATS.

COLORING THE PRODUCT AND PREPARING THE DECORATION "ATF EFFETTI"

ANTICHE TERRE FIORENTINE EFFETTI is an ecologic, transparent decoration based on natural oxides and highly technological resins in a water solution. This decoration is obtained using "Antiche Terre Fiorentine" neutral base. This base can be tinted by adding and mixing thoroughly with a paddle one of the 13 colored toners shown in the catalogue "Antiche Terre Fiorentine Effetti". To then obtain the "tone on tone" effect it is necessary to add one 0.250 can of Effetti in any of the 13 available colors, with Terre Fiorentine Natural base. Using the special "Candis Antiche Terre Fiorentine Brush" apply the product Antiche Terre Fiorentine Effetti using random cross-hatch strokes. Cover an area of 1-2 m² (photo A/B). After about 3-10 minutes, smooth the product Antiche Terre Fiorentine using the special "Candis ATF spatula" (photo C/D). This way you will easily obtain a beautiful, personalized decoration of your home, apartment, office.

COLORING THE PRODUCT AND PREPARING THE DECORATION "ATF EFFETTI PERLAGE"

This particular effect is obtained by using "Antiche Terre Fiorentine Irrescenti base". Pour into the ATF Irrescenti base the desired "Perla di Luce" to obtain the "perlage effect" illustrated in "ATF Effetti Perlage" catalogue. Mix with a spatula and subsequently with a slow speed mixer until a complete powder dispersion is achieved making sure not to damage the ATF chemical-physical balance. ATF iridescent base is then further tinted with one of the 13 colored toners shown in the catalogue "ATF Effetti Perlage". Mix with a spatula. of your home, apartment, office. To then obtain the "tone on tone" effect it is necessary to add one 0.250 can of Effetti in any of the 13 available colors, with Terre Fiorentine Natural base. Using the special "Candis Antiche Terre Fiorentine Brush" apply the product Antiche Terre Fiorentine Effetti using random cross-hatch strokes. Cover an area of 1-2 m² (photo A/B). After about 3-10 minutes, smooth the product Antiche Terre Fiorentine using the special "Candis ATF spatula" (photo C/D). This way you will easily obtain a beautiful, personalized decoration of your home, apartment, office.

PACKAGING: 2,5 lt. cans • COVERAGE: approx 20m² • DRYING TIME: tactile: 2-3 hours, complete: 2-3 days. • TOOL CLEANING: warm water • SURFACE CLEANING: after 20 days with warm water and soap.

TESTED AND PATENTED PRODUCT IT - 1303181 - EP - A - 10004638

TESTING PERFORMED BY ISTITUTO TECNICO SCIENTIFICO GIORDANO (BELLARIA)

- SPECIFIC GRAVITY: 1 : 1,03 • PH: 6,5 - 7,5 • VISCOSITY: 7000/8000 CPS 20°C. • DRYING TIME: PARTIAL: 3-4 HOURS COMPLETE: 1-2 DAYS
 - MINIMUM APPLICATION TEMPERATURE: + 5°C. • PRODUCT ASPECT: OPAQUE
 - AGEING RESISTANCE: VERY GOOD • SCRUBBABILITY: DIN 53778 OVER 4000 ABRASION CYCLES
 - FLAMMABILITY: THE PRODUCT IS TOTALLY FREE OF FLAMMABLE SOLVENTS, IN A WATER SOLUTION.
 - WATER RESISTANCE: THE PRODUCT APPLIED AT A RATE OF 90-100 GR/M2 HAS A WASHABILITY OF OVER 4000 GARDNER CYCLES
- CERTIFIED BY THE ITALIAN CHAMBER OF COMMERCE LABORATORY IN ROME.

SAMPLE DESCRIPTION* The tested sample is made of n. 2 water based paint products. Test description: Upon the applicant's request the paint products have been subjected to the following tests: - on the paint product "ANTICHE TERRE FIORENTINE" a specific Halid Ion has been determined. On the paint product "FONDO ANTICHE TERRE FIORENTINE" a specific Alkaline Ion has been determined. As per the applicant's request, the test results only indicate whether or not the specific ion is present in the tested paint product.

TEST RESULT

Paint Product	Ion	Result
ANTICHE TERRE FIORENTINE Top Coat	HALID ion negative (-)	Present
ANTICHE TERRE FIORENTINE Base Coat	ALKALINE ion positive (+)	Present

* according to the applicant's declaration.
